Florida Green Building Coalition Announces Annual Green Achievement Award Winners

ST. PETERSBURG, Fla. (April 15, 2022) – The Florida Green Building Coalition (FGBC), the state's leading certifier of green residential and commercial construction and local governments, has announced their 2021 Annual Green Achievement Award winners.

"Congratulations to the 2021 recipients and our members who are dedicated to improving the green built environment, sustainability and promoting its positive environmental, social and economic impact in our state," said FGBC President Ralph Locke.

Points are awarded by FGBC for each of the individual green certifying levels – bronze, silver, gold, and platinum. Numerical points are given for selecting and integrating individual environmentally friendly green products, best practices, and sustainable techniques from a menu of available green options.

Winners are recognized for Builder of the Year - Most Multifamily Homes Certified, Most Single Homes Certified, Builder Highest Multi-Family Scoring Home and Highest Scoring Single-Family Home, Highest Scoring Commercial Project, Highest Scoring High Rise Residential Project, Highest Scoring Local Government, County and City; Highest Scoring Single-Family and Multi-Family Home Volunteer of the Year and Certifying Agent of the Year.

FGBC Volunteer of the Year

William Kachman
Deland

Two decades ago, FGBC brought together industry professionals from the construction, government, academic and research communities to create green standards tailored specifically to Florida. Beyond third party certifications, FGBC is also a resource for the builders, developers, contractors, architects, and municipalities when considering going green.

“Florida Green” standards take a scientific approach and are developed with Florida specific criteria. They address Florida’s hot-humid environment, climate, distinctive topography, unique geology, resiliency, and natural disasters.

Going Green? In Florida you have a choice. For more information call (407) 777-4920, email info@floridagreenbuilding.org or visit www.floridagreenbuilding.org.
