

FOCUS ON YOUR MISSION

Nonprofit Resources envisions a world where nonprofits accomplish more through shared resources. We advance our mission of *helping nonprofits succeed* by serving organizations of any size, from anywhere through fully remote personalized services. Our competitive advantage is our progressive company culture coupled with combined decades of professional nonprofit experience.

PROFESSIONAL & PROGRESSIVE

For nearly 30 years, our top-notch team has been serving nonprofits with decades of management and specialized skills. We use the most advanced technology, and always stay current on emerging trends. Nonprofit Resources is woman-owned and operated, with our staff working remote from 9 states. Your success is our mission.

DO MORE, WITH LESS

On average, national nonprofits save 30% on management and overhead costs when they partner with an Association Management Company (AMC). This holds true for state and regional organizations too, and we will gladly show you why. Our remote model means you're never paying for our overhead costs. With Nonprofit Resources, you get the benefits of an accredited firm without the high cost of a large AMC.

ACCREDITATION MATTERS

Among 500-plus Association Management Companies (AMCs) worldwide, only 81 have achieved AMC Institute Accreditation. We are part of this top tier group, delivering exceptional, verified service. Our AMCI Accreditation is based on the ANSI Standard of Good Practices and is recognized by The Center for Association Leadership. Our custom-fit model centers around performance protocols that measure all aspects of nonprofit management.
